linkedin.com/in/sailedg • github.com/sailedg • rodasdev.com

Frontend Developer specializing in React, Next.js, and TypeScript. Experienced in building web solutions for clients, managing the entire development lifecycle from UI design in Figma to production deployment. Passionate about creating fast, optimized, and user-centered applications with a strong focus on performance and maintainability.

PROFESSIONAL EXPERIENCE

VisionPlayer IPTV

Mobile Frontend Developer

Freelance

May 2026 – June 2026

- Redesigned the IPTV application's user interface, reducing visual clutter and optimizing navigation across five core user flows using React Native and Expo.
- Designed and implemented reusable components to maintain a consistent, scalable, and user-centered interface.
- Developed the interface based on Figma designs, ensuring pixel-perfect implementation and an optimized experience across mobile devices and smart TVs.

SIC DC

Frontend Developer

Freelance

April 2026 - May 2026

- Gathered and analyzed client requirements to define the website structure, content organization, and information architecture.
- Designed and developed the corporate website from scratch using Next.js and TypeScript, creating a modern digital presence aligned with the company's brand identity.
- Implemented SEO best practices and performance optimizations, achieving an initial load time of under two seconds on mobile devices.
- Managed the development workflow using Git and GitHub, deploying and configuring the application on Vercel for production.

Fabián Berger

Frontend Developer

Freelance

July 2025 – August 2025

- Implemented the website interface based on the provided design, delivering a clean, responsive, and optimized layout across multiple devices.
- Rebuilt the codebase from scratch following frontend best practices, improving maintainability and overall performance.
- Enhanced accessibility, optimized assets using the WebP image format, and integrated Google Analytics to monitor website traffic and user behavior.
- Optimized website performance compared to the previous version, achieving a perfect **100/100** score in **Performance, Accessibility, Best Practices**, and **SEO** according to Google PageSpeed Insights.
- *Tech Stack: HTML, CSS, Bootstrap*

EDUCATION

UNIVERSIDAD DEL ZULIA
Bachelor's Degree in Computer Science

Zulia, Venezuela
June 2017 – Incomplete
(Completed 2 semesters)

CERTIFICATIONS

PLATZI

Online

- React.js Course *June 2026*
- JavaScript Fundamentals *September 2025*
- JavaScript DOM Manipulation *August 2025*
- Frontend Developer Career *November 2024*
- AI Fundamentals for Data & Machine Learning *April 2023*
- ECMAScript 6+ *October 2020*

PROJECTS

Personal Portfolio

- Designed and developed my professional portfolio from scratch, covering the entire development process from UI design in Figma to frontend implementation with Next.js and TypeScript, version control with GitHub, and deployment on Vercel.
- Implemented dark/light mode, multilingual support, SEO optimization, smooth animations, and a fully responsive design.
- Added persistent user preferences using cookies to preserve language and theme settings across sessions.
- *Tech Stack: Figma, Next.js, React, TypeScript, Framer Motion, Tailwind CSS, GitHub, Vercel*

SKILLS

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frameworks & Libraries:** React, Next.js, React Native, Expo
- **Styling:** Tailwind CSS, Bootstrap, CSS Modules, Styled Components, Framer Motion
- **State Management:** React Context API
- **Testing:** Vitest, Playwright, React Testing Library
- **Backend:** Node.js, Express.js
- **Databases & APIs:** MySQL, Firebase, Supabase, REST APIs
- **Tools & Deployment:** Git, GitHub, npm, Vite, ESLint, Vercel, Netlify
- **Design:** Figma, Adobe Illustrator, Adobe Photoshop
- **Languages:** Spanish (Native), English (A2 - Basic)
